HOW TO USE SAFARI

THIS IS THE INTERNET

With the Safari app , you can browse the web, add webpages to your reading list to read later, and add page icons to the Home Screen for quick access.

INCREASE TEXT SIZE AND DISPLAY

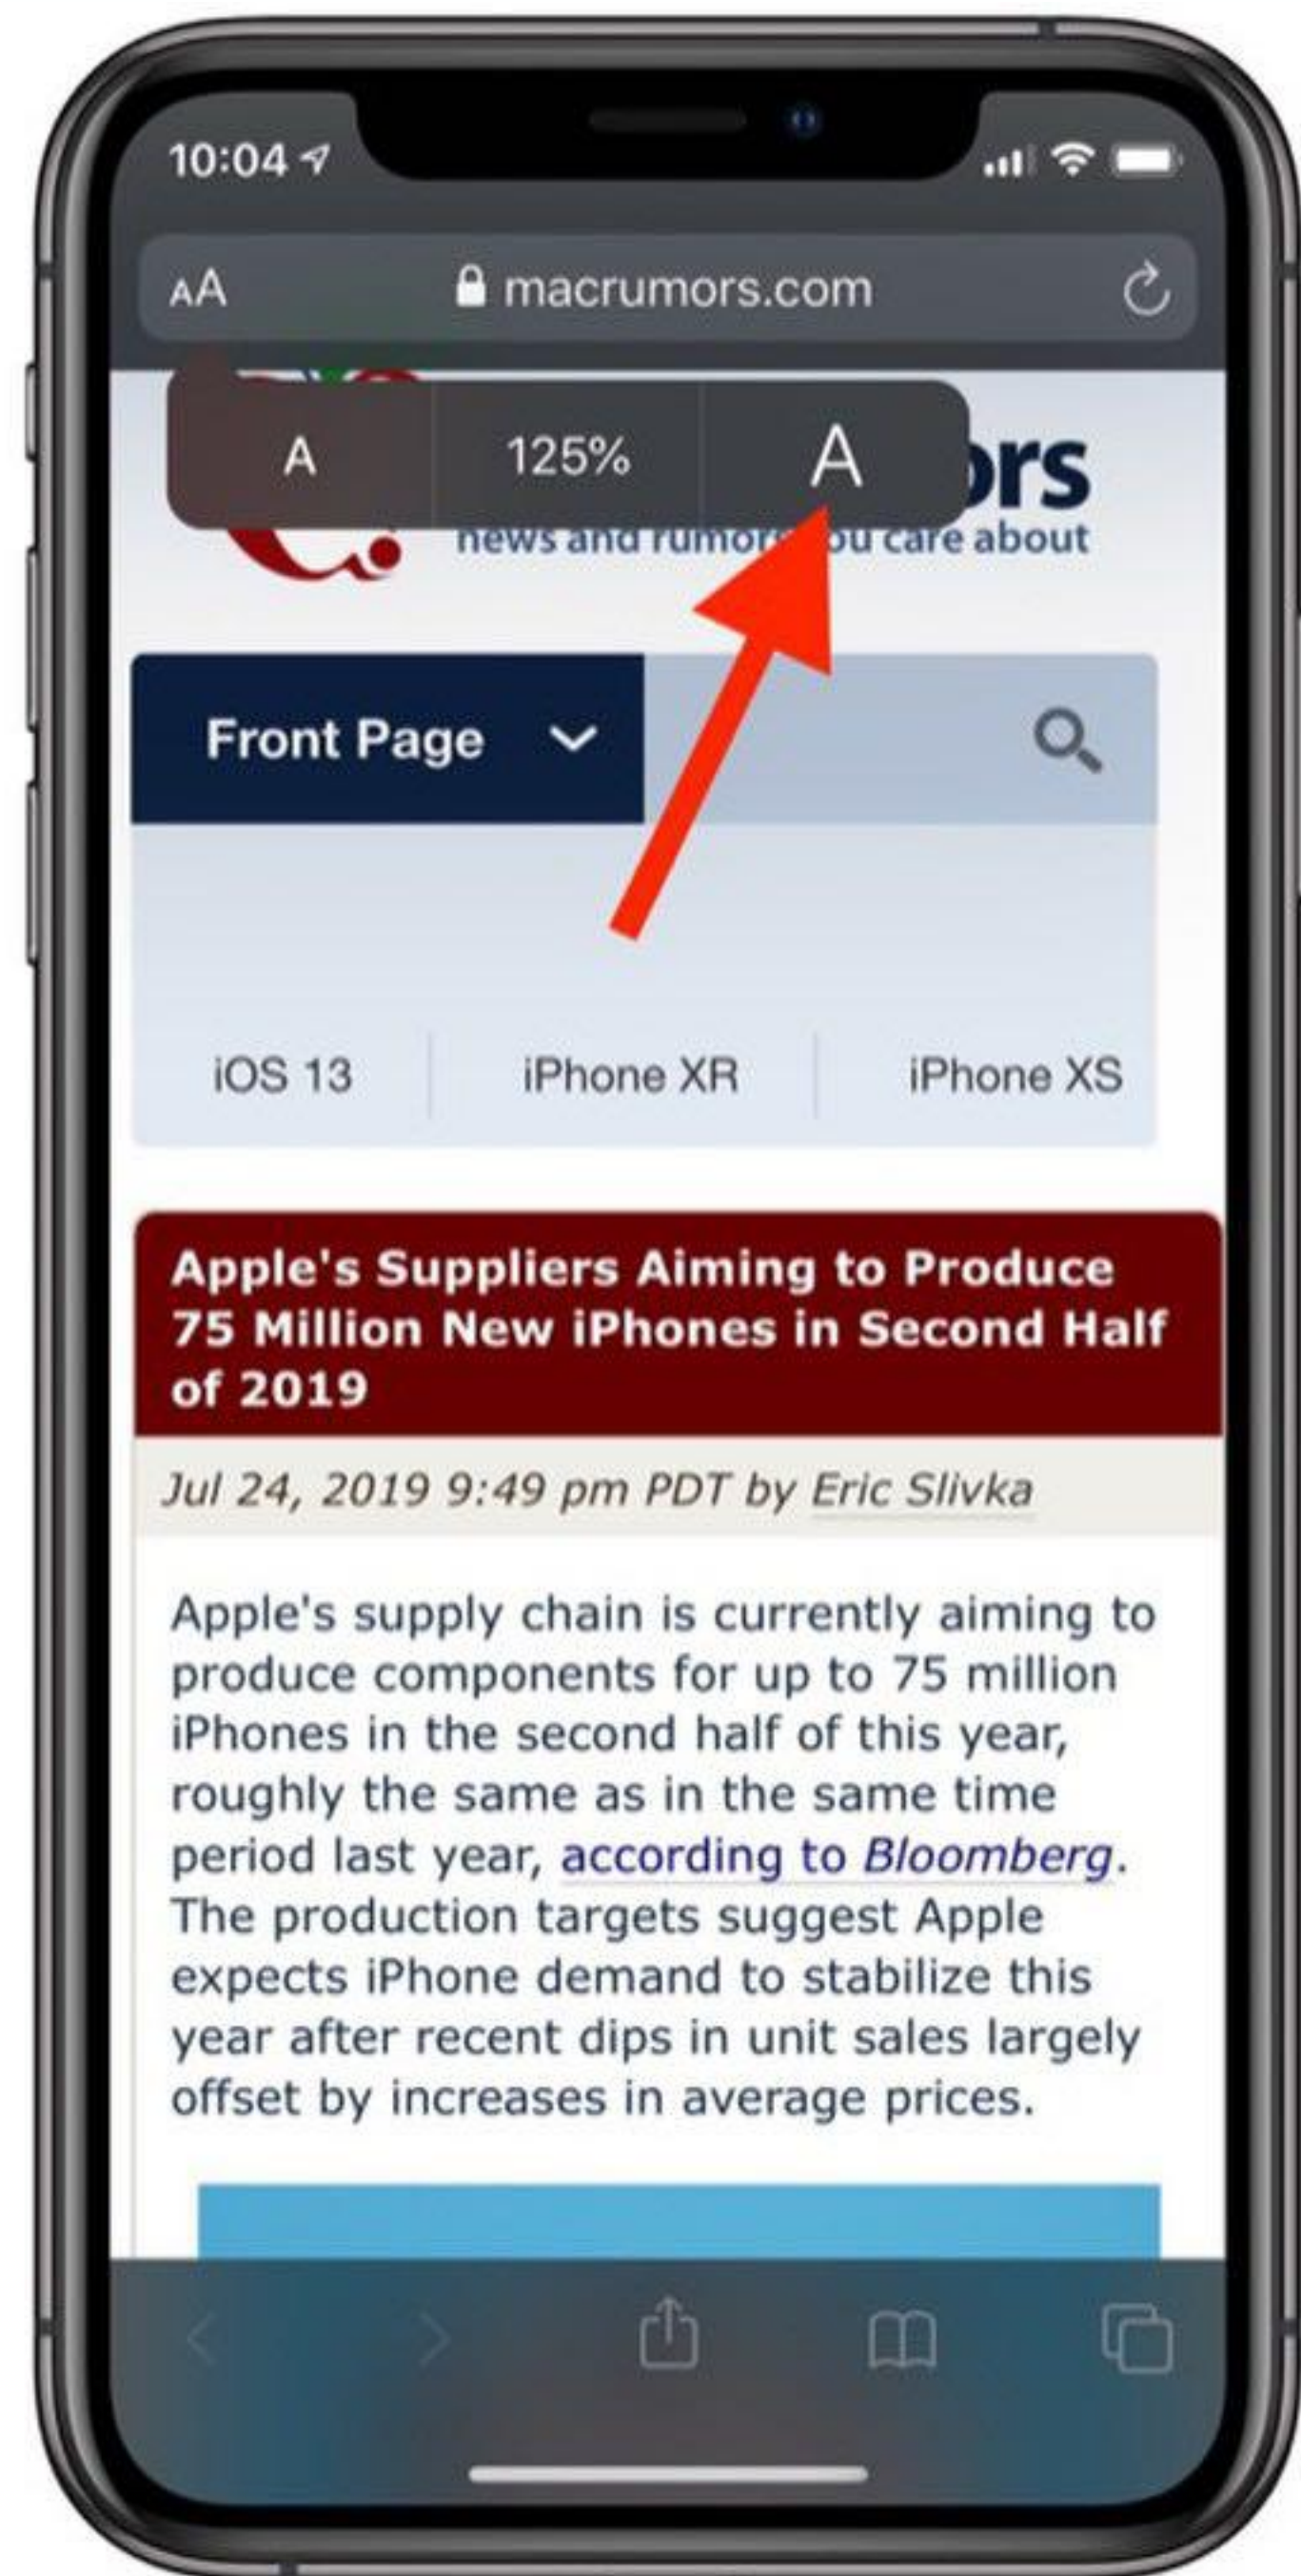

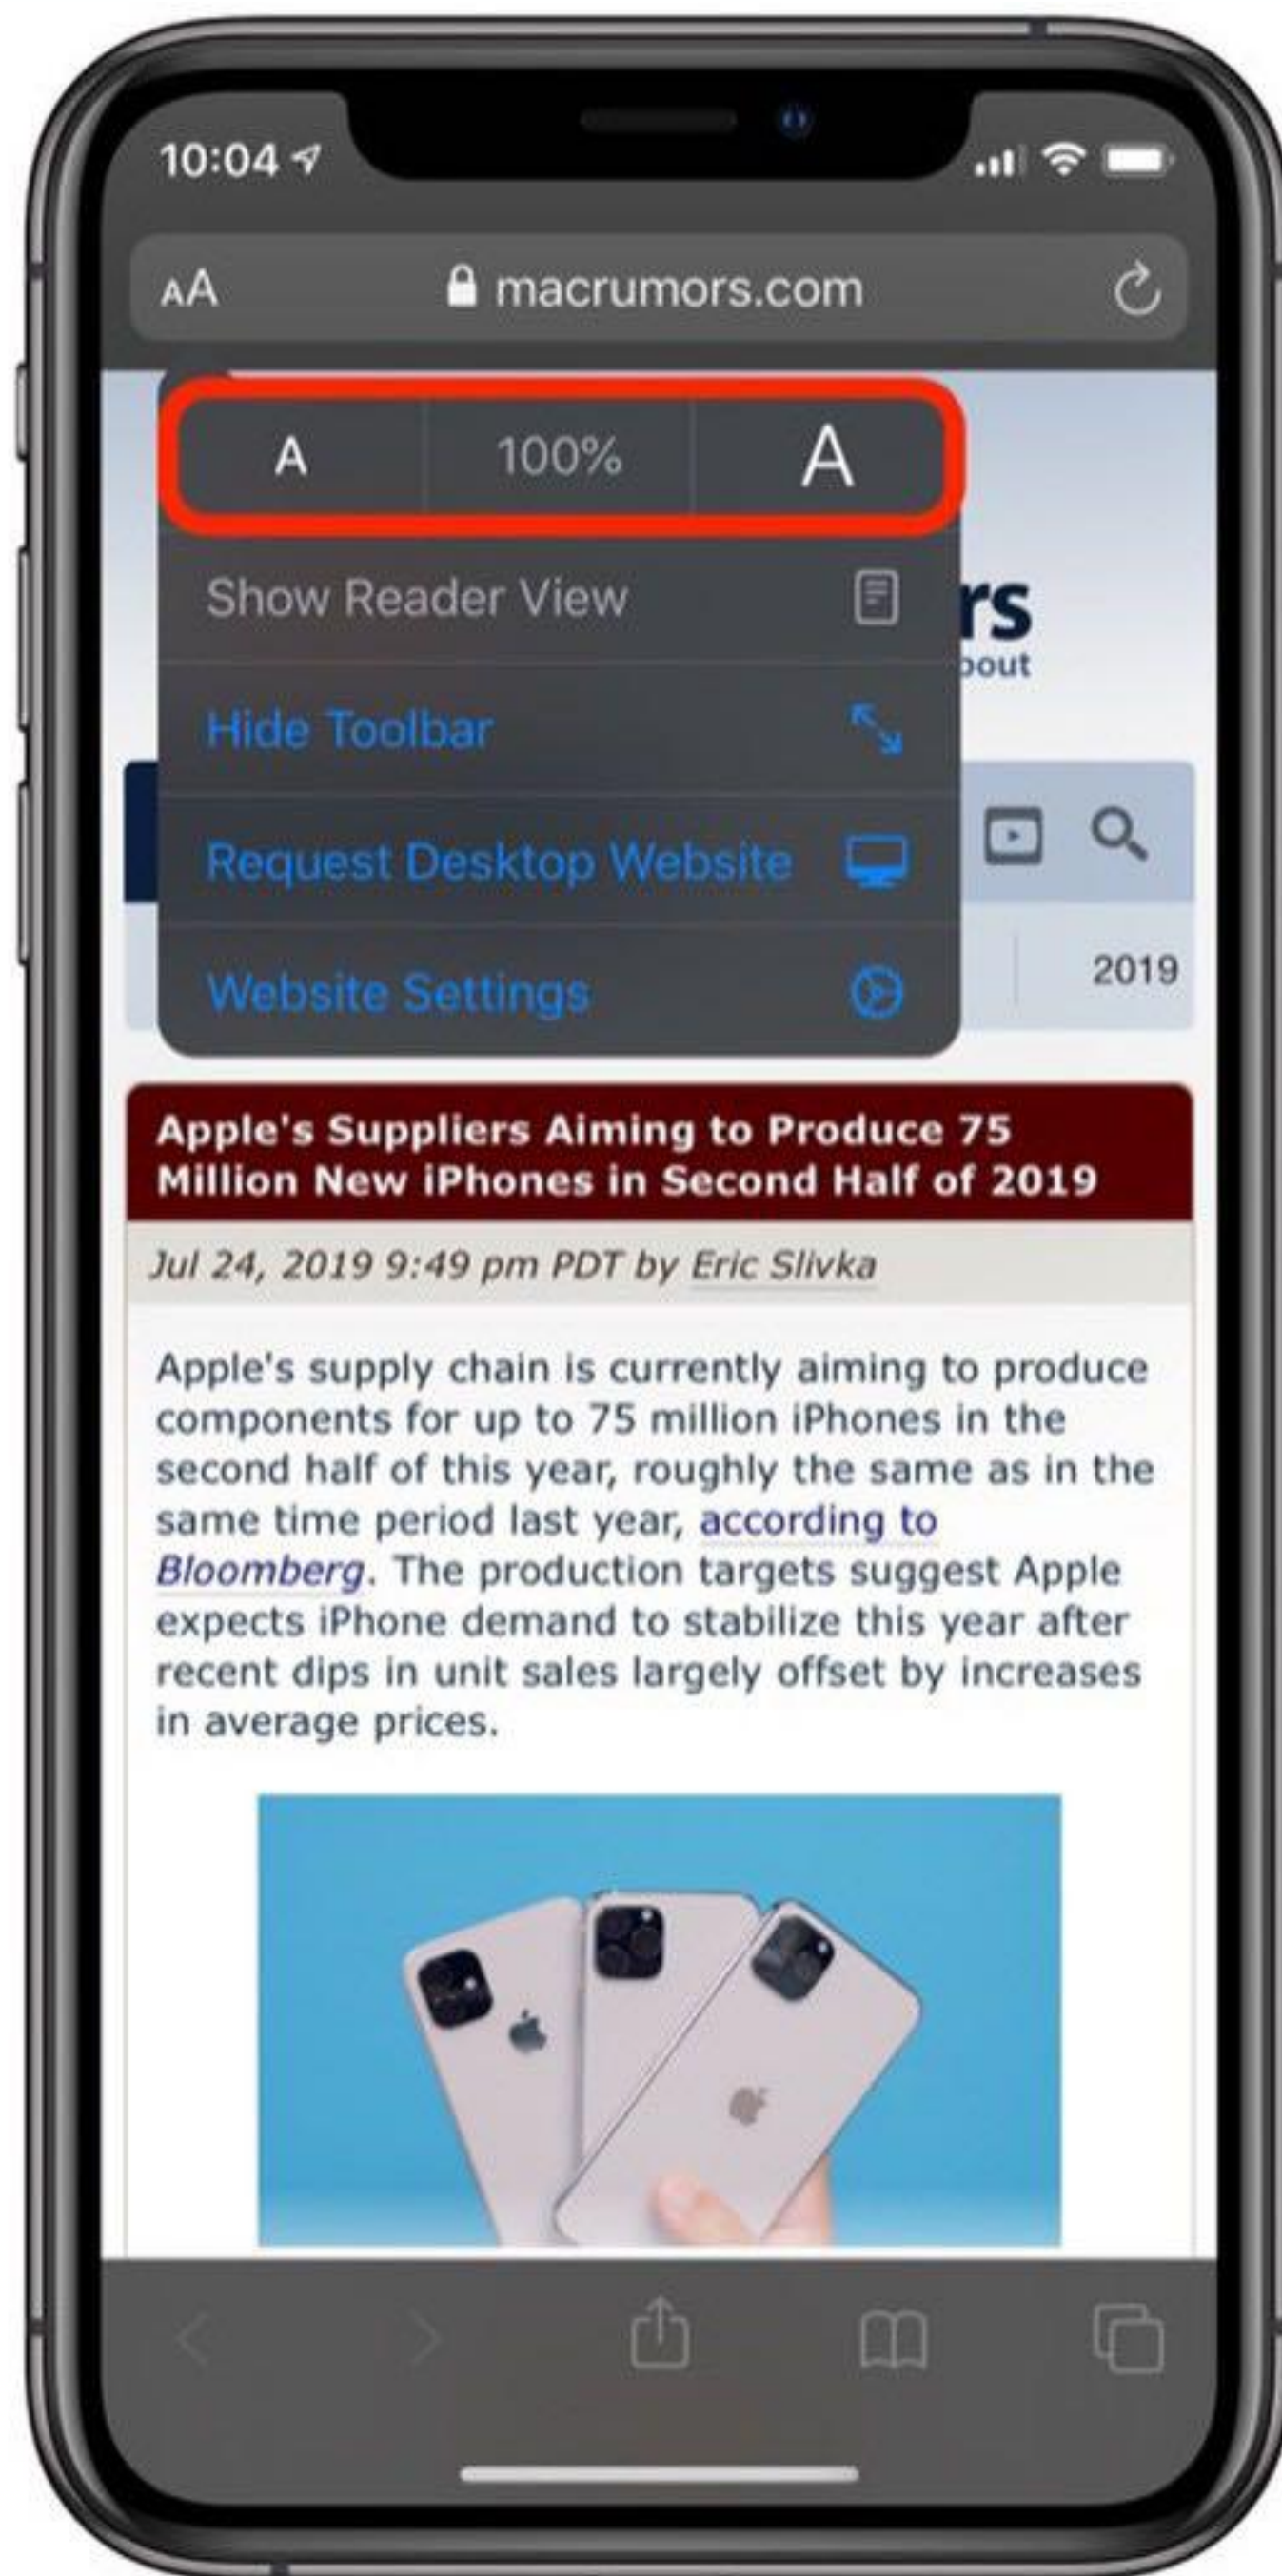

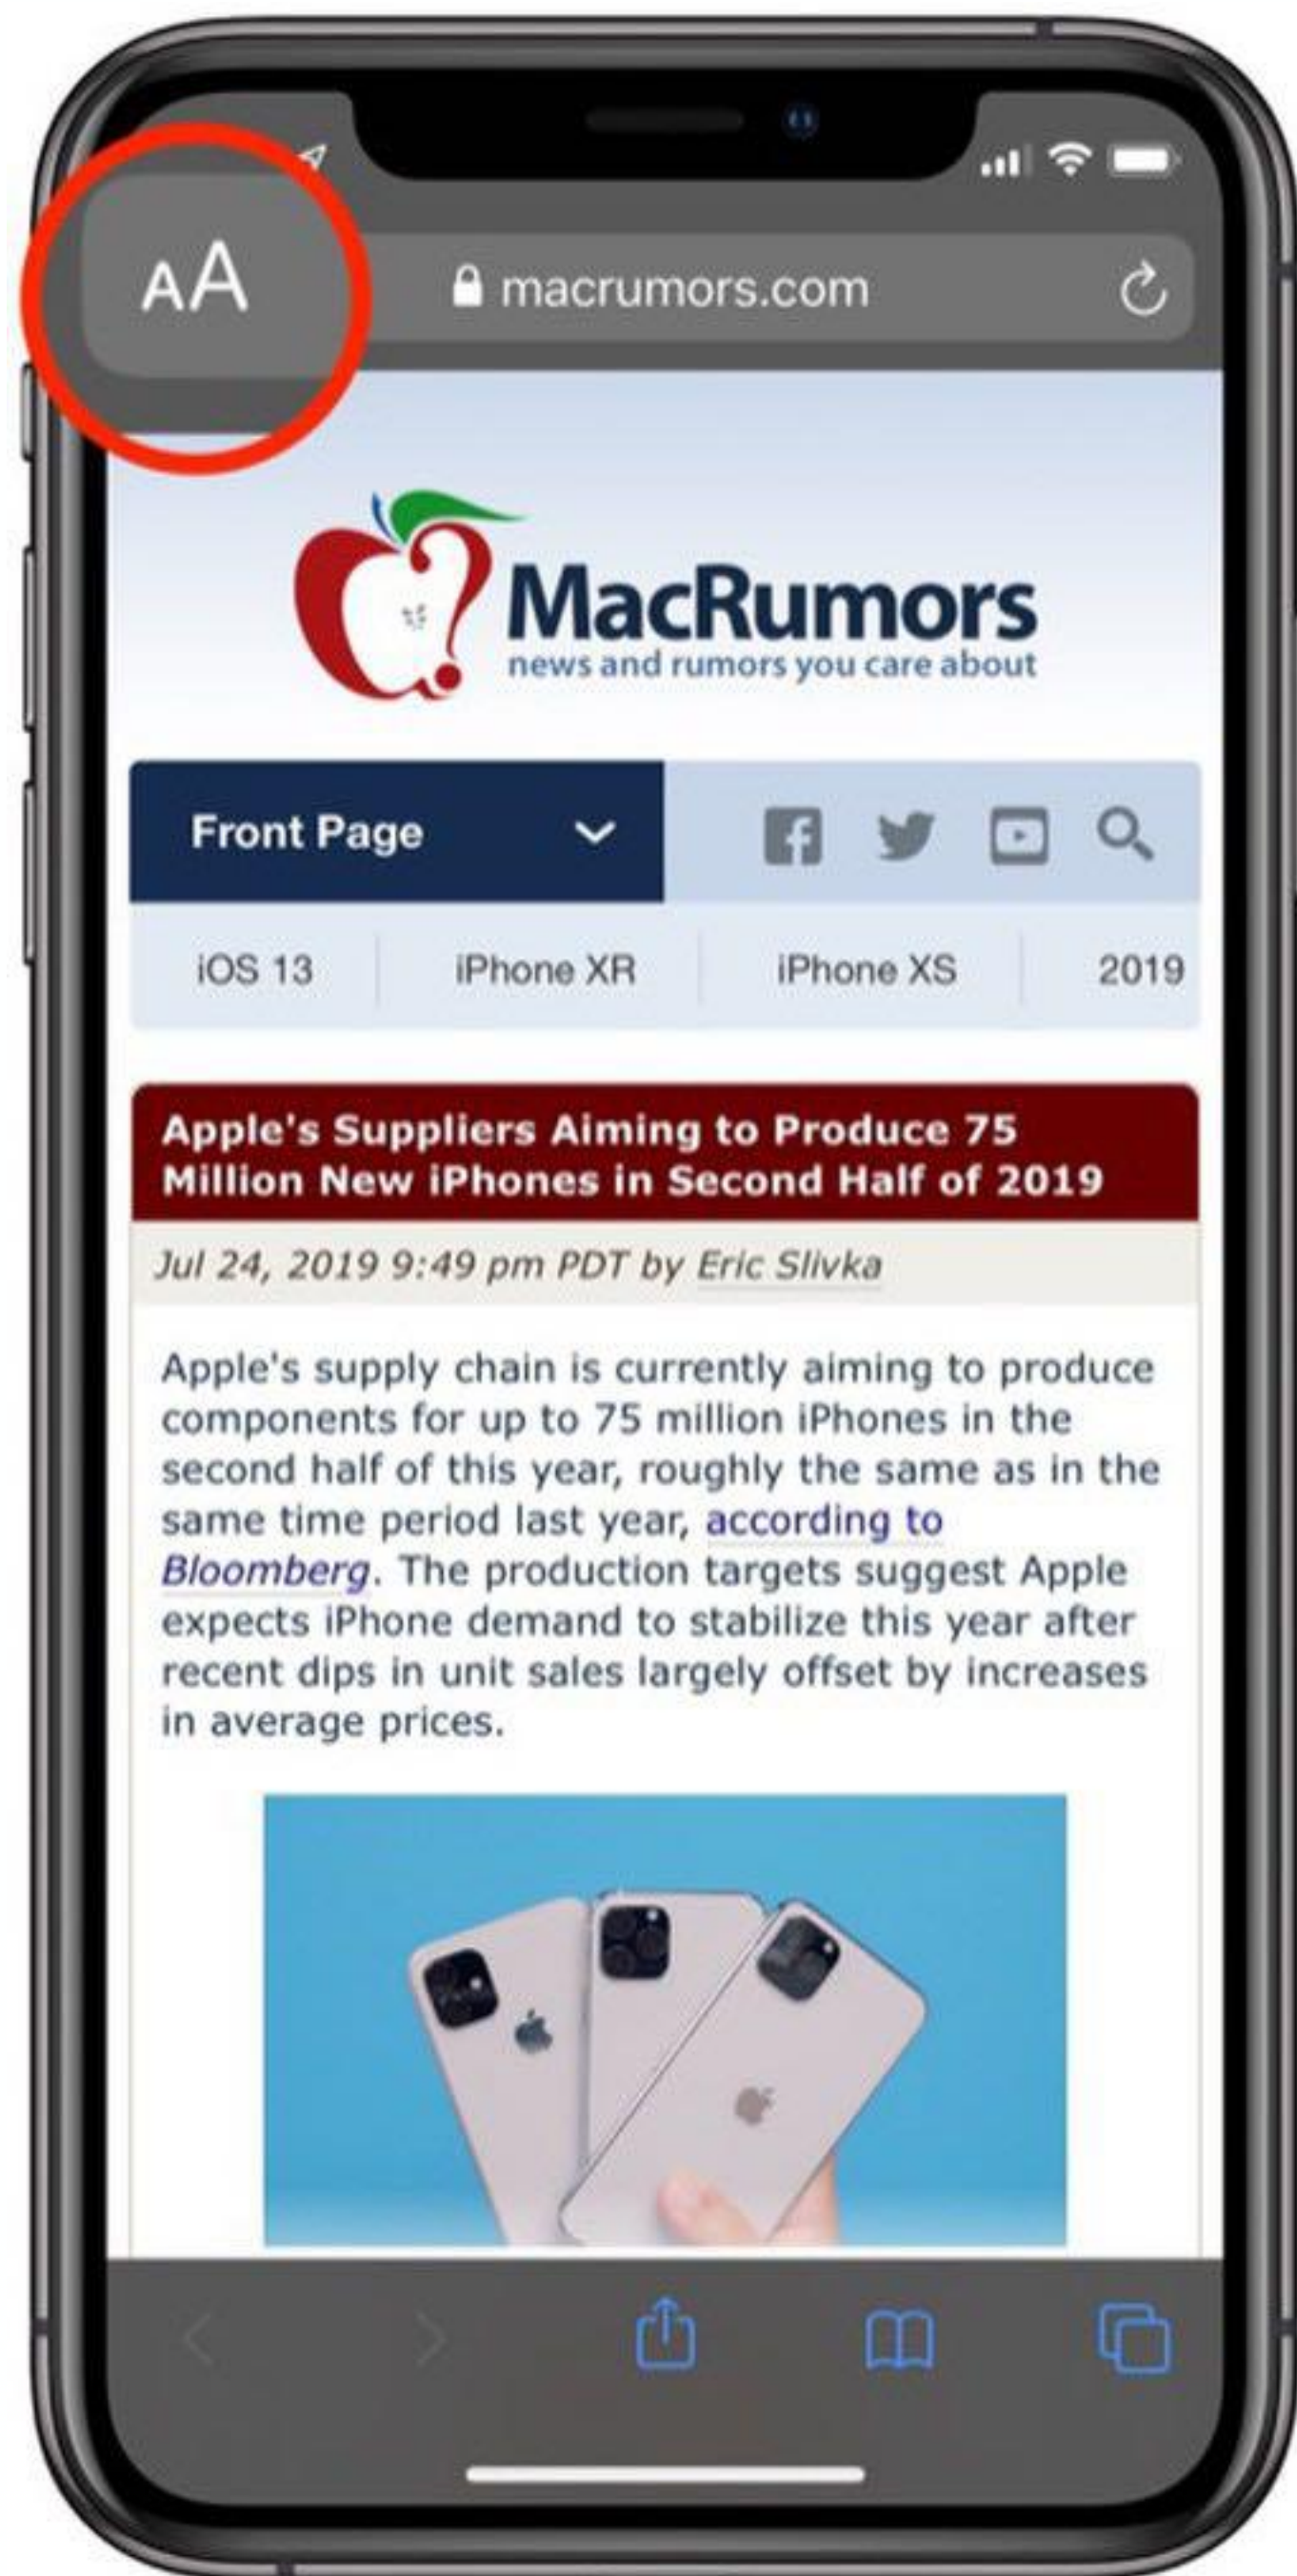

THERE ARE LOTS OF OPTIONS

Use the View menu to increase or decrease the text size, switch to Reader view, specify privacy restrictions, and more.

To open the View menu, tap AA on the left side of the search field, then do any of the following:

Change the font size: Tap the large A to increase the font size or tap the small A to decrease it.

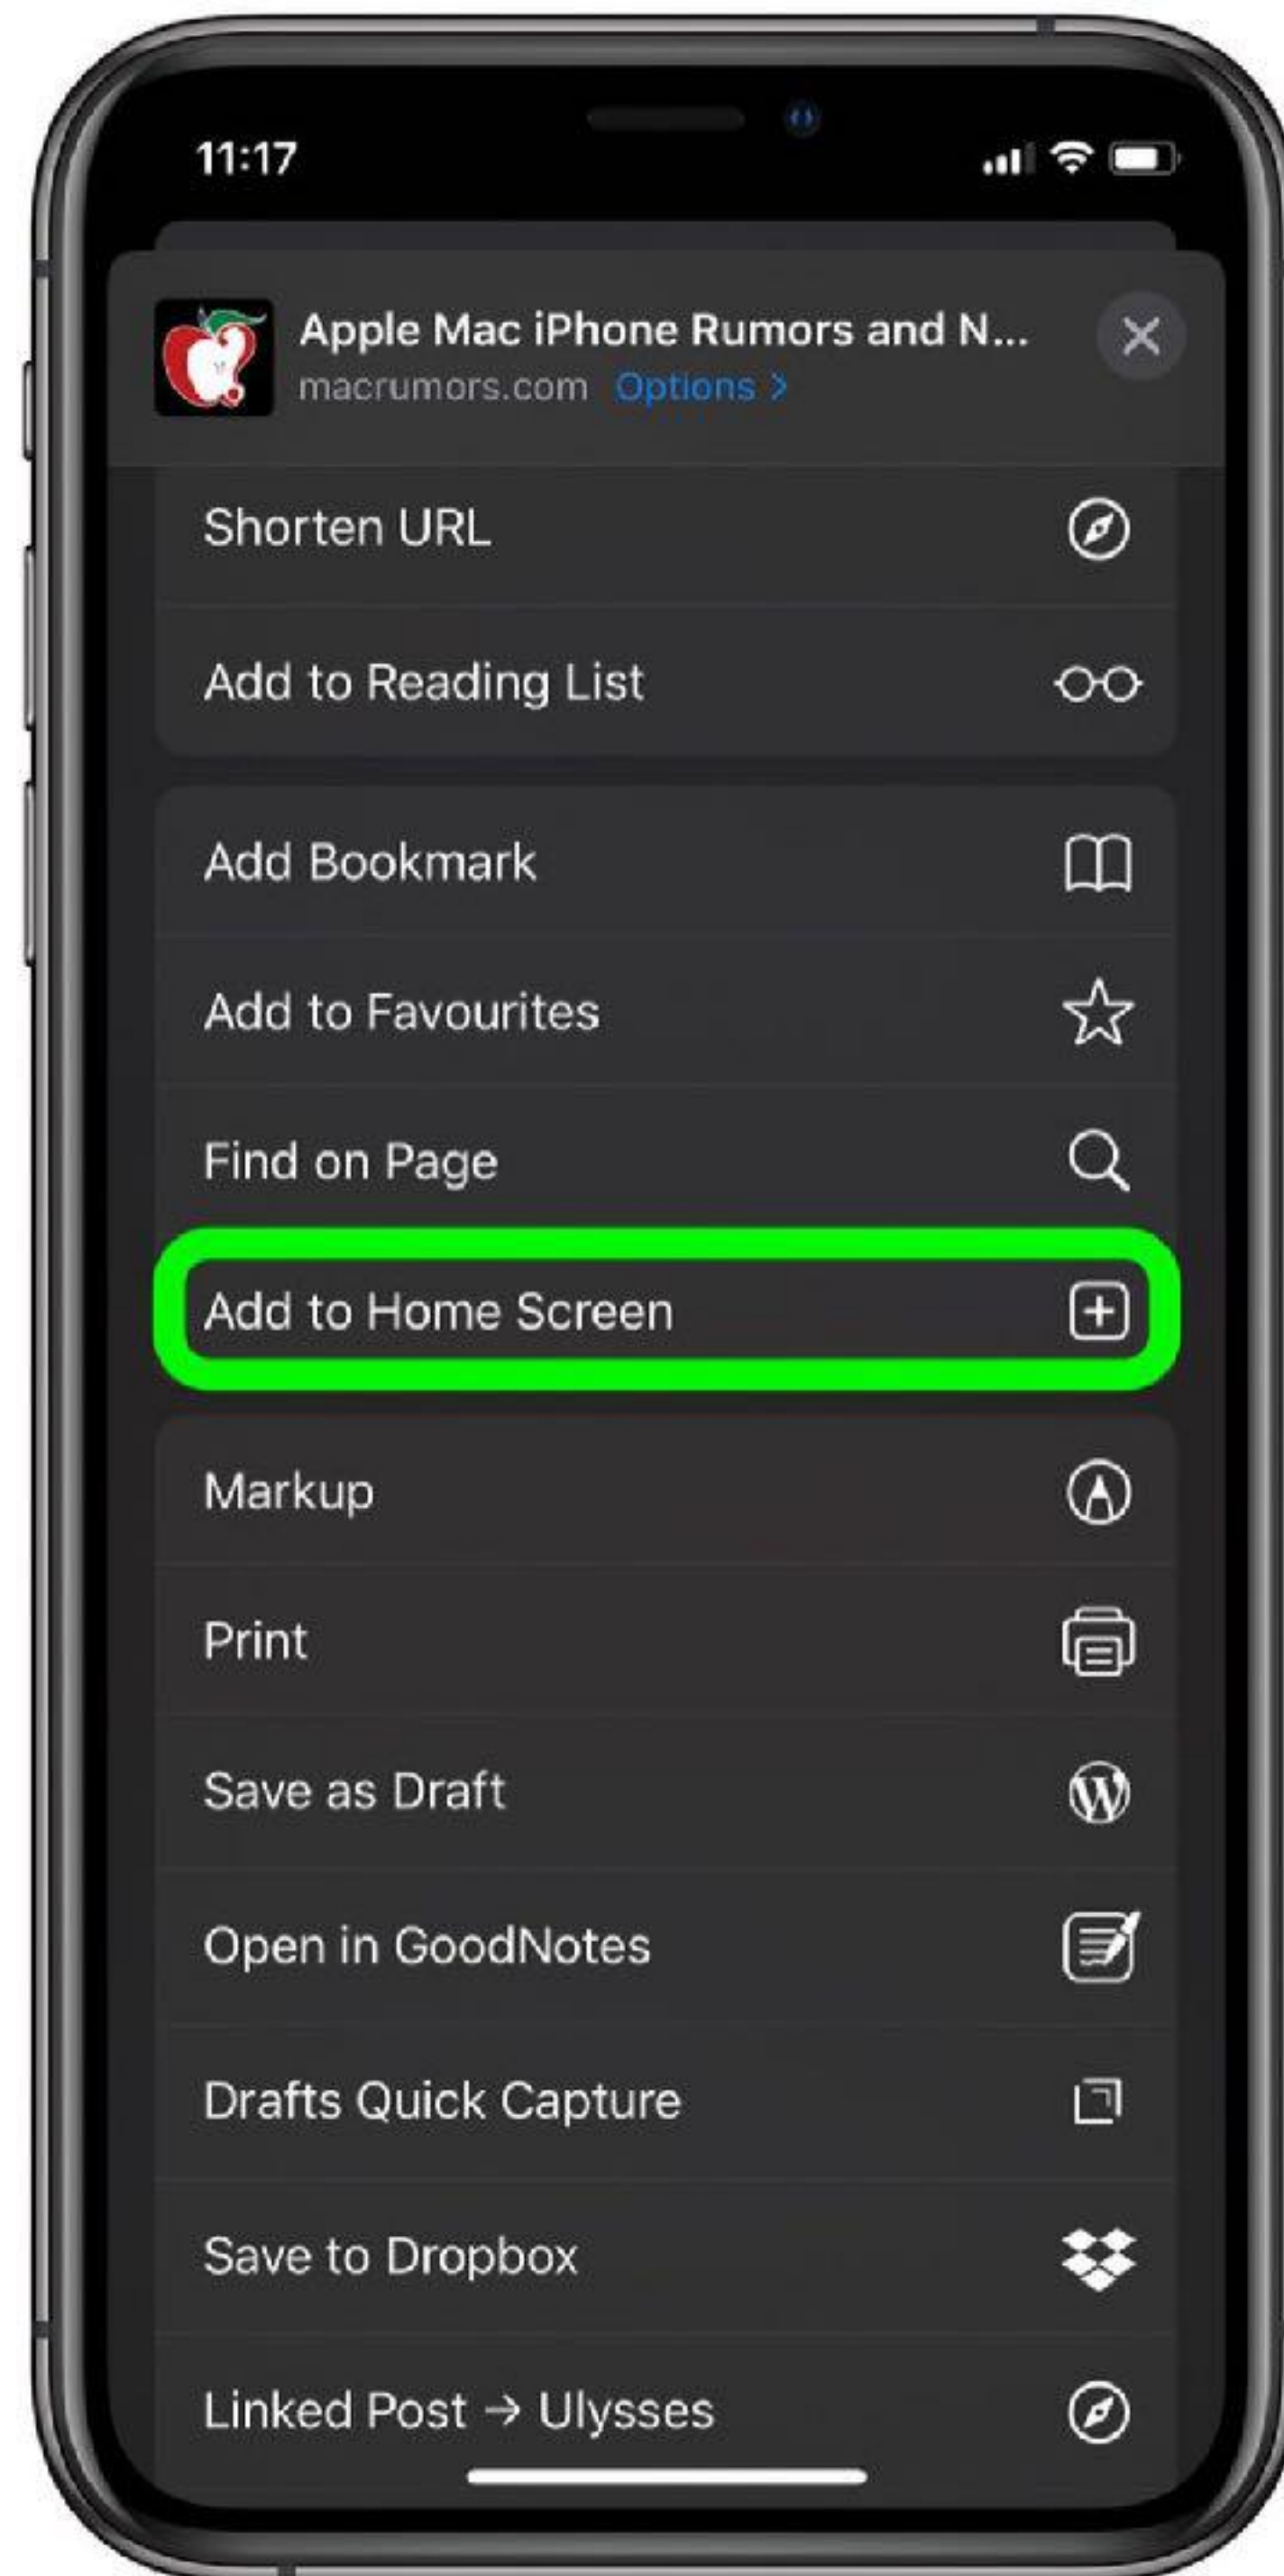

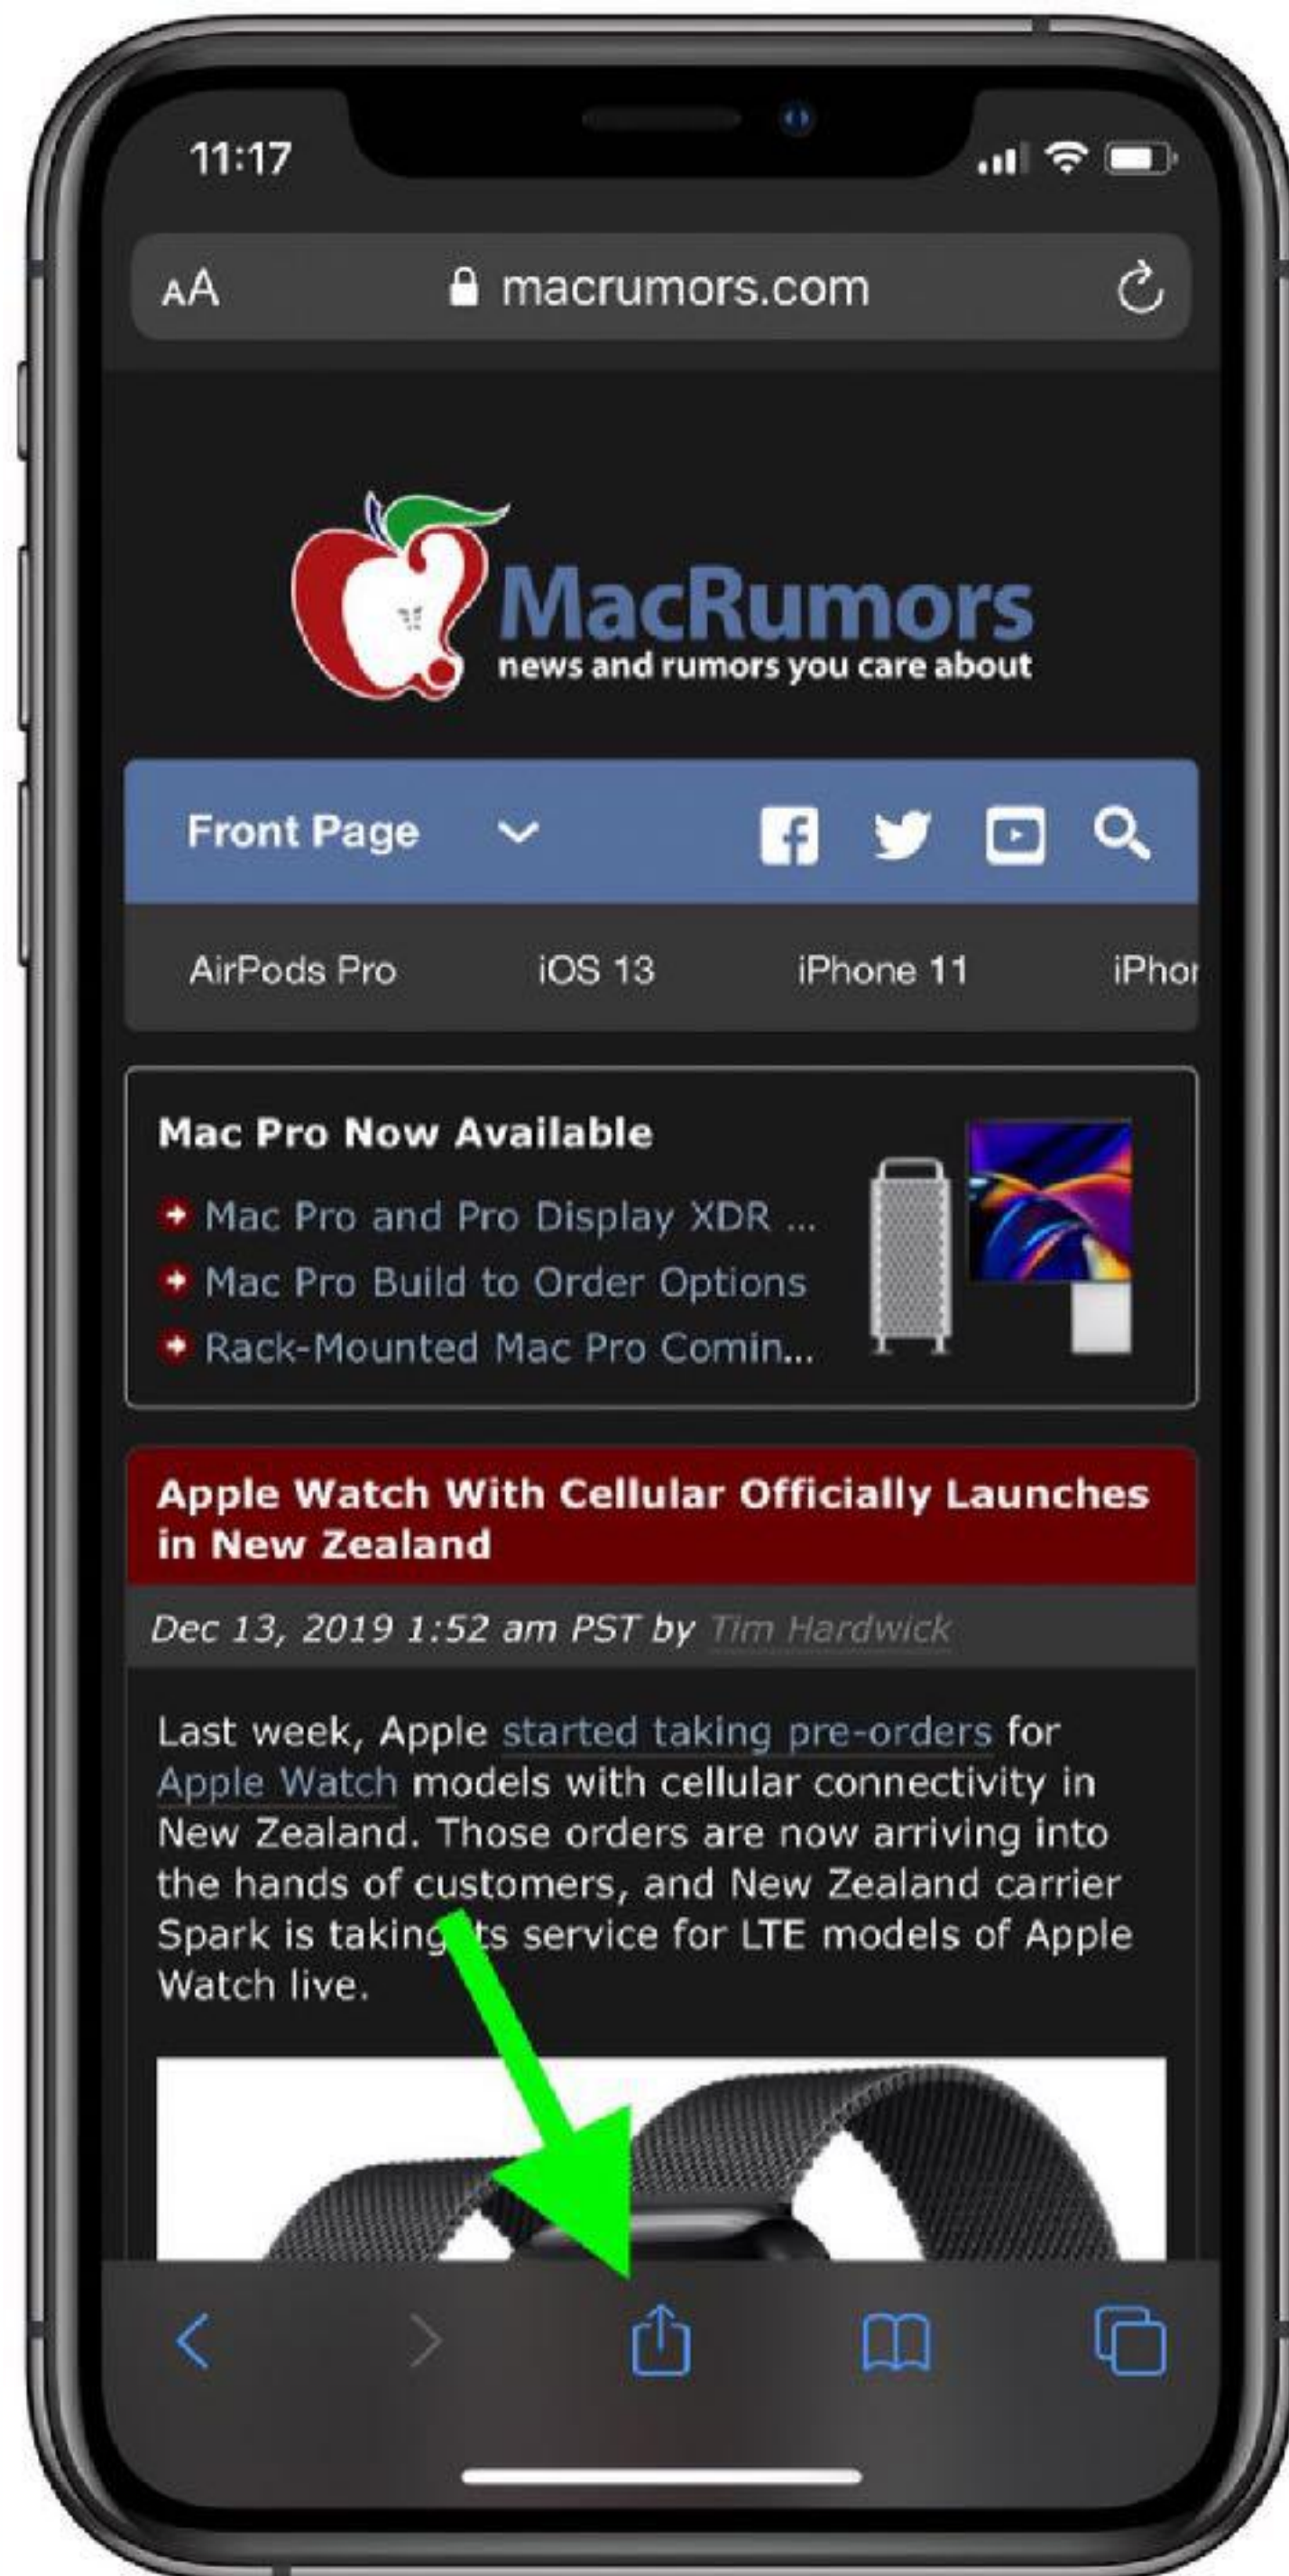

View the webpage without ads or navigation menus: Tap Show Reader View (if available).

HOW TO USE APP STORE

HERE YOU CAN FIND HELPFUL APPLICATIONS THAT DOWNLOAD TO YOUR IPHONE

1. On your iPhone, iPad, or iPod touch, open the App Store app.
2. Browse or search for the app that you want to download. If you find a game that says  Arcade, [subscribe to Apple Arcade](#) to play the game.
3. Tap or click the price or Get button. If you see the "Open" button instead of a price or Get button, you already bought or downloaded that app.

In the App Store, if an app has a Get button instead of a price, the app is free. You won't be charged for downloading a free app. Some free apps offer in-app purchases and subscriptions that you can buy. Subscriptions and in-app purchases give you access to more features, content, and more.

HOW TO ARRANGE APPS

THOSE ARE ALL THE BUTTONS ON YOUR IPHONE SCREEN

My preferred way is to just keep your finger pressed on the app icon and jiggly mode will activate. You can then rearrange them or delete them by pressing the X. The technical instructions are also below =)

Select an **app** on your Home screen (it doesn't matter which one you select).

Press and hold on the **app** icon for two seconds.

Tap the X in the upper-left corner of each **app** icon you want to **remove**.

Tap Done in the upper-right corner of your **iPhone** (or press the Home button on **iPhones** with one) when you're done

MyChart provides secure online access to portions of your medical records from the convenience of your phone or computer.
